

EU20i

Inverter technology delivers super stable clean power with a pure sine wave form - essential for powering sensitive electronics and computers. Superb efficiency with EcoThrottle, only running as fast as the load demands, improving fuel consumption and extending engine life.

Super quiet operation with noise reducing casing and acoustic panelling.

Stylish and ergonomic design. Lightweight and compact, easy to carry, transport and store.

Parallel operation - Optional cable allows two of the same units to be linked together to provide 3600W.

DC Output up to 12V-8.3A to charge batteries (optional cable required).

Dual sockets to power or recharge two products simultaneously.

- Max output 2000W.
- Rated output 1600W.
- 230 output voltage (V)
- Noise level @ 7m 52dB(a).
- Run time at variable load 4 to 10 hours.
- Weight 21 kg.
- Dimensions: L: 510, W: 290, H: 425
