

**Honda Generator EU65iS**

Inverter technology delivers super stable clean power with a pure sine wave form - essential for powering sensitive electronics and computers. Super efficiency with EcoThrottle, only running as fast as the load demands, improving fuel consumption and extending engine life.

Super quiet operation with noise reducing casing and acoustic panelling.

Transport wheels as standard, allowing a single user to easily manoeuvre the unit around the work site. DC Output up to 12A to charge batteries (optional cable required).

Electric start for effortless operation.

- Max output 6500W.
- Rated output 5500W.
- 230 output voltage (V)
- Noise level @ 7m - 60dB(a)
- Run time 5.1 hours (with Eco-Switch on).
- Weight 115 kg.
- Dimensions: L:1195, W:672, H:716
